A goal of the MECHANISMS OF HUMAN DISEASE course is to foster learning in a challenging and stimulating, yet enjoyable, environment. To this end, the faculty, course directors and course coordinator will assist students in whatever way we can.

Course Director:
Theresa Kristopaitis M.D. Extension 6-5118
Pager 68777-11290
Email Tkristo@lumc.edu

Assistant Course Director:
Jodi Speiser, MD Extension 7-2640
Email jspeiser@lumc.edu

Course Coordinator
Caterina Goslawski Extension 6-8781
Email cgoslawski@luc.edu

Should you have questions or need for academic counseling we welcome the opportunity to assist you. If you have any questions concerning a particular topic in pathology, microbiology, virology or clinical medicine, we suggest that you contact and meet with the faculty member who is responsible for that lecture. The course coordinator is available to assist you in contacting and making an appointment with the faculty member if necessary. If the above are not successful, contact me and I will arrange for assistance.

Throughout the course each student is expected to behave in a PROFESSIONAL MANNER. Attendance and participation in small group discussions and laboratory sessions is expected. Appropriate behavior in the lecture hall, small groups, and laboratory sessions is required. Distracting classmates and/or faculty with conversation during a lecture, laboratory session, or small group session is not acceptable.

Likewise, cheating and other forms of academic or professional dishonesty will not be tolerated. These matters will be dealt with according to Stritch Academic Policies.

Theresa Kristopaitis, MD
Course Director

Jodi Speiser, MD
Assistant Course Director
