

STUDY GUIDE 2: Practical Neurology DVD Review

Another way of studying the patient DVD cases is by the final neurological diagnosis. The following checklist table is organized in that fashion for STUDY GUIDE 2:

Viewed?	Case	Diagnosis of Patient
		Cerebrovascular
<input type="checkbox"/>	15	Ischemic Myelopathy (Antiphospholipid Antibody Syndrome)
<input type="checkbox"/>	17	Nonfluent Aphasia 2° to Left Frontal Infarction
<input type="checkbox"/>	18	Nonfluent Aphasia 2° to LICA Occlusion
<input type="checkbox"/>	19	Fluent Aphasia 2° to Left Posterior Temporal Infarction
<input type="checkbox"/>	20	Wernicke Aphasia 2° to Left MCA Infarction
<input type="checkbox"/>	23	Alexia without Agraphia
<input type="checkbox"/>	24	Gerstmann Plus Syndrome
<input type="checkbox"/>	26	Amnesia (PCA Infarct)
<input type="checkbox"/>	29	Asymptomatic Carotid Artery Stenosis
<input type="checkbox"/>	30	Vertebrobasilar TIAs: Basilar Artery Stenosis
<input type="checkbox"/>	31	Dysphagia/Imbalance: Vertebral Artery Stenosis
<input type="checkbox"/>	32	Pure Motor Hemiparesis due to Capsular Lacunar Infarction
<input type="checkbox"/>	33	Ataxic Hemiparesis due to Pontine Infarction
<input type="checkbox"/>	34	Left Internal Carotid Artery Dissection
<input type="checkbox"/>	35	Wallenberg Syndrome 2° to Vertebral Artery Dissection
<input type="checkbox"/>	36	Multiple Cerebral Infarctions due to APLA Syndrome
<input type="checkbox"/>	37	Pseudobulbar Palsy (Multiple Strokes)
<input type="checkbox"/>	38	Watershed Infarcts
<input type="checkbox"/>	39	Moyamoya Syndrome Associated with Down Syndrome
<input type="checkbox"/>	41	Recurrent Facial Palsies (VZV) followed by Infarction
<input type="checkbox"/>	42	Multiple Lobar Hemorrhages/ Cerebral Amyloid Angiopathy
<input type="checkbox"/>	43	Pure Sensory Stroke due to Thalamic Hemorrhage
<input type="checkbox"/>	44	Superior Sagittal Sinus Thrombosis
<input type="checkbox"/>	52	Palatal Myoclonus due to Medullary Infarction
<input type="checkbox"/>	53	Lacunar Hemichoreoathetosis
<input type="checkbox"/>	59	Ataxia due to Bilateral PICA Infarctions
<input type="checkbox"/>	66	Horner's Syndrome in Patient with Wallenberg Syndrome
<input type="checkbox"/>	68	Anterior Ischemic Optic Neuropathy
<input type="checkbox"/>	73	Right Homonymous Hemianopsia, APLA (PCA Occlusion)
<input type="checkbox"/>	76	Vertigo/Imbalance 2° to Isolated Vermian Infarction
<input type="checkbox"/>	92	Hemiplegic Gait/Spasticity
<input type="checkbox"/>	94	Acute Cerebellar Infarction (PICA) with Early Hydrocephalus

Viewed?	Case	Diagnosis of Patient
		Dementia
<input type="checkbox"/>	21	Primary Progressive Aphasia
<input type="checkbox"/>	27	Dementia (Early Alzheimer Disease)
<input type="checkbox"/>	28	Dementia (Late Alzheimer Disease)

STUDY GUIDE 2: Practical Neurology DVD Review

Another way of studying the patient DVD cases is by the final neurological diagnosis. The following checklist table is organized in that fashion for STUDY GUIDE 2:

Viewed?	Case	Diagnosis of Patient
		Epilepsy
<input type="checkbox"/>	44	Superior Sagittal Sinus Thrombosis
<input type="checkbox"/>	87	Partial Complex Seizures
<input type="checkbox"/>	88	Partial Seizures with Elementary Symptomatology

Viewed?	Case	Diagnosis of Patient
		Headache & Migraine
<input type="checkbox"/>	81	Migraine Headaches/Pregnancy
<input type="checkbox"/>	82	Cluster Headaches
<input type="checkbox"/>	83	CSF Hypotension Syndrome
<input type="checkbox"/>	84	Pseudotumor Cerebri
<input type="checkbox"/>	85	Trigeminal Neuralgia
<input type="checkbox"/>	86	Atypical Facial Pain

Viewed?	Case	Diagnosis of Patient
		Infections of CNS
<input type="checkbox"/>	41	Recurrent Facial Palsies (VZV)/Cerebral Infarction
<input type="checkbox"/>	74	Herpes Zoster (Postherpetic Neuralgia)
<input type="checkbox"/>	75	Recurrent Aseptic Meningitis

Viewed?	Case	Diagnosis of Patient
		Movement Disorders
<input type="checkbox"/>	45	Parkinsonian Tremor
<input type="checkbox"/>	46	Essential Tremor
<input type="checkbox"/>	47	Parkinsonian plus Essential Tremor
<input type="checkbox"/>	48	Parkinson's Disease
<input type="checkbox"/>	49	Torticollis
<input type="checkbox"/>	50	Cerebral Palsy/Dystonia
<input type="checkbox"/>	52	Palatal Myoclonus due to Medullary Infarction
<input type="checkbox"/>	53	Lacunar Hemichoreoathetosis
<input type="checkbox"/>	55	Hemifacial Spasm
<input type="checkbox"/>	56	Tic Disorder
<input type="checkbox"/>	57	Hemidystonia (Sarcoidosis)
<input type="checkbox"/>	58	Acute Dystonic Reaction
<input type="checkbox"/>	59	Ataxia due to Bilateral PICA Infarctions
<input type="checkbox"/>	60	Cerebellar Ataxia
<input type="checkbox"/>	61	Hereditary Ataxia

STUDY GUIDE 2: Practical Neurology DVD Review

Another way of studying the patient DVD cases is by the final neurological diagnosis. The following checklist table is organized in that fashion for STUDY GUIDE 2:

Viewed?	Case	Diagnosis of Patient
		Multiple Sclerosis
<input type="checkbox"/>	62	Bilateral Internuclear Ophthalmoplegia 2° to MS
<input type="checkbox"/>	63	Nystagmus/Ataxia 2° to Relapsing-Remitting MS
<input type="checkbox"/>	64	Multiple Sclerosis (Pontine Lesion)
<input type="checkbox"/>	65	Spastic Gait/Dysarthria due to Primary Progressive MS

Viewed?	Case	Diagnosis of Patient
		Neoplasms
<input type="checkbox"/>	77	Deafness/Tinnitus 2° to Vestibular (Acoustic) Schwannoma
<input type="checkbox"/>	93	Leptomeningeal Malignancy (Lymphoma)

Viewed?	Case	Diagnosis of Patient
		Neuromuscular
<input type="checkbox"/>	1	Bilateral Carpal Tunnel in Pregnancy
<input type="checkbox"/>	2	Ulnar Neuropathy at the Elbow
<input type="checkbox"/>	3	Peripheral Facial Nerve Palsy
<input type="checkbox"/>	4	Hypoglossal Nerve Palsy
<input type="checkbox"/>	5	Brachial Plexopathy (Parsonage-Turner Syndrome)
<input type="checkbox"/>	6	Polyneuropathy/Sensory Neuronopathy
<input type="checkbox"/>	7	L-5 Radiculopathy (Disc Herniation)
<input type="checkbox"/>	8	Foot Drop: History of Arthroscopic Surgery
<input type="checkbox"/>	9	Motor Neuron Disease
<input type="checkbox"/>	10	Myasthenia Gravis
<input type="checkbox"/>	11	Myotonic Dystrophy

Viewed?	Case	Diagnosis of Patient
		Sleep Disorders
<input type="checkbox"/>	90	Obstructive Sleep Apnea
